

# Single Box Dispenser II

Single Box Dispenser II (SBD II) integrates within the versatile SmartDrawer to offer even more high density storage from 128 individually locked compartments.

## Suggested Applications:

Insert Boxes • End Mills • Drill Bits  
Reamers • Taps • Allen Wrenches  
Locks • Keys • And many more!

SBD II delivers easy-to-use secure storage of high value, mission critical products including multiple insert package sizes. Having selected their chosen product from the easy-to-use touchscreen interface, LED lights direct the user to the relevant drawer and unlocked cartridge. Combined with Rapid Refill technology, SBD II saves time, resources and reduces waste as no repackaging is required.

As part of a SmartDrawer vending system, SBD II offers the full range of user and administrative capabilities from SupplyPro. SmartDrawer requires only a power supply and a network connection for full connectivity to the cloud based SupplyPort database. Monitor the activity, stock levels and alerts at your device from anywhere, 24 hours a day.
